

A man with dark skin, short dark hair, and glasses is sitting at a desk. He is wearing a white button-down shirt and light-colored pants. He has white earbuds in his ears and is holding a tablet computer with both hands, looking at the screen. The desk is wooden and has a red folder or book on it. In the background, there are vertical blinds and a window showing some greenery outside.

The Education*Dynamics* eLearning Indexsm

**Prospective Student
Demand for Degrees**
2022 Edition

The 2022 EducationDynamics eLearning IndexSM represents the most comprehensive presentation of prospective student demand for degrees available to institutions today. In this report, prospective student interest was examined to ascertain what the most popular degree programs were in 2020 and those that may offer colleges and universities unique opportunities for expansion in the future based on the labor market demands. The core indices drive the analyses and result in identification of degrees with high student interest and opportunity for growth, as well as occupational outcomes with high job volume and opportunity for growth. The eLearning Demand Index represents the aggregate demand for a given degree program among prospective students as well as the future labor market.

This report is a key resource for understanding the supply and demand dynamics of the current postsecondary online education market. Schools can use such data to underpin decision making on the roll-out of new programs as well as the expansion of existing programs. Using the Index, decisions can be made based upon hard data that profile student interest, demand and education trends.

KEY FINDINGS INCLUDE:

Analytics, Healthcare, Mental Health, Engineering and Education are strong candidates for future programs across multiple degree levels

Highest potential opportunities by degree level:

ASSOCIATE

Healthcare
Veterinary Technology
Legal Studies
Early Childhood Education
Engineering

BACHELOR'S

Analytics
Finance
Mental Health/Substance Abuse
Medical Mangers
Nursing
Network Security

MASTER'S

Education
Counseling/Social Work/Mental Health
Occupational Therapy
Speech Language
Healthcare (PA, NPs)

DOCTORAL

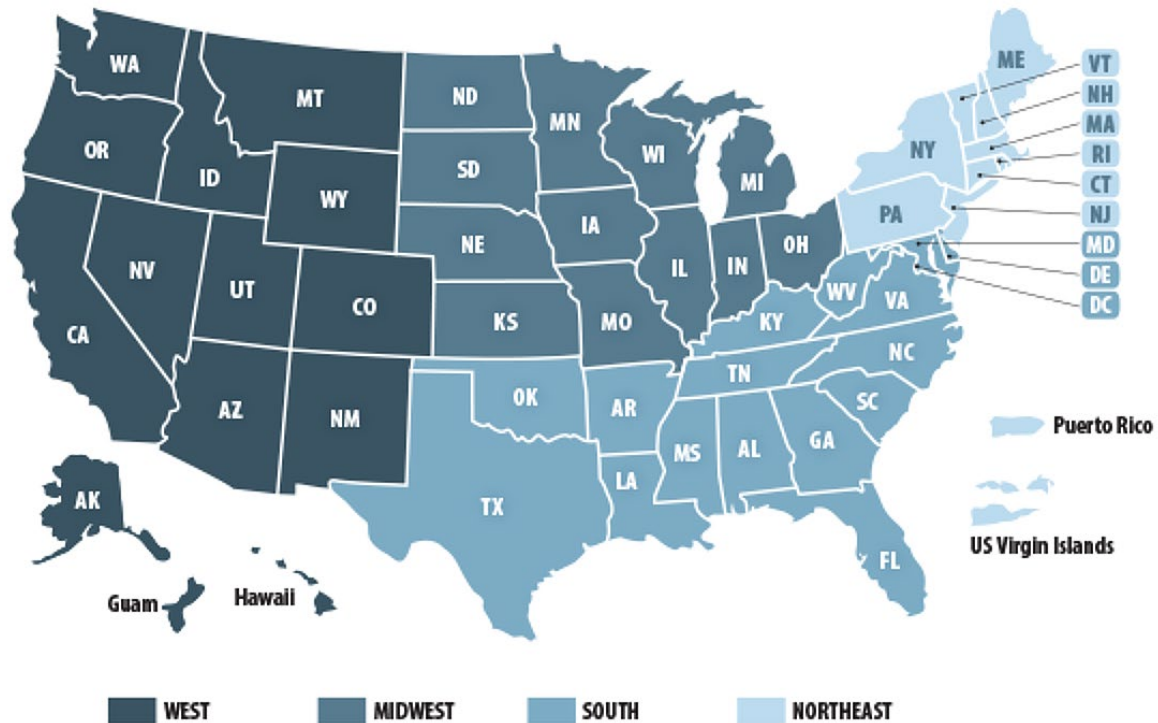

Education
Physical Therapy
Veterinarians
Dental
Law

METHODOLOGY:

Definition of regions:

For the purpose of the research in this document, we have aligned all regional data with the definition of regions as defined by Bureau of Labor Statistics.

INDEX CONSTRUCTION:

The indices drive the analyses and resulting identification of degrees with high student interest and opportunity for growth:

Student Demand Index is calculated by summing the total number of completions for a given subject area and the growth based on the last 5 years to index the highest demand and 2020 completions volume.

Labor Demand Index is calculated by summing the total number of jobs for a given occupation and the projected long term growth based on the 2028 BLS occupational projections.

SECTION 1:

Degree Topic “Families” (2 digit CIP codes) with above average 2020 completions and growth

The following associate degree overall subject fields (NCES 2-digit CIP codes) had both a higher than average number of completions in 2020 and a higher than average five-year growth between 2016-2020 (relative to other associate degree areas).
